Question_or_Comment = I have no questions at this time for your "esteemed panel of experts." I simply wish to quote one portion of the recently released executive summary of your draft report: "...intercity passenger rail MIGHT [emphasis mine] complement [Texas'] long-term mobility strategy. A comprehensive assessment of intercity passenger rail is needed to determine its value to Texas." The goal is not to determine the overall level of investment, mind you, nor the specific technologies to be used, the individual routes and services to be offered, or the several stations to be established. No...according to your tidy little group, a (shall we say) "STUDY" will be required to determine IF WE NEED PASSENGER TRAINS AT ALL!! With people like you working overtime to ensure our dependence upon automobiles remains unchecked for yet another generation (or two), I have absolutely NO HOPE for the world my children will inherit. My sheer disgust knows no bounds. Garl Boyd Latham PO Box 50605 Dallas, Texas 75250-0605 972-252-1726
