Question_or_Comment = 1.)Please re-adjust the traffic lights located at Navo & 380. They stay red way too long and then we have people running the red light because it is just red for a ridiculous amount of time. 2.) There are also kids waiting to cross there at Navo&380 before and after school as well.They are now running across traffic due to the ridiculous length of this light. Could TXDOT put in a crosswalk for them? Thank you. Sincerely, Susan Slaughter
